

EQUESTRIAN SIGN POLICY

Town of Barre

1. A completed Equestrian Sign Application must accompany each request for an equestrian sign.
2. The applicant must sign and date the Equestrian Sign Application for it to be considered complete
3. The Town Engineer will review the application and complete the Engineering information at the bottom of the application form.
4. The Town Engineer will then investigate the request and whether it involves a Town resident or a local business. The investigation will include the frequency of use and the potential number of users.
5. The application will be considered by the Traffic Safety Advisory Committee at their business meeting.
6. After consideration, the request will be referred, with the TSAC's recommendation, to the Selectboard.
7. If the applicant is a business where horses are rented, the business will be responsible for the payment of all materials for the sign location(s) once they are approved and prior to the installation by the Town.
8. Criteria for consideration will be determined by the road geometrics, width of the road, curves, speed limit, traffic count (ADT), dead ends, the number of horses in the area, etc.

Approved by Selectboard: October 2, 2001

Amended: January 8, 2002
