**TOWN OF BARRE MUNICIPAL BUILDING
Annex Meeting Rooms
149 Websterville Rd
Websterville, VT 05678-0116**

CENSUS 2010: Making Our Community Count

The U.S. Census Bureau is conducting the decennial census this year and needs everyone to participate. There's too much at stake to miss out on this opportunity. Let's make our community count!

Our Constitution requires the government to count everyone living in the U.S. every 10 years. Census data is used to allocate \$400 billion annually to states and localities for programs such as social services, health care, education, and infrastructure. If our community's population figures are off, we may not receive all the federal dollars to which we are entitled.

Ideally, the Census Bureau counts everyone by delivering or mailing a questionnaire to each household. The residents fill it out and mail it back in a pre-addressed, stamped envelope. Filling out the census questionnaire is easy and should only take about 10 minutes. The questionnaire asks 10 or fewer questions about each person living in the household, including their name, age, birthday, sex, Hispanic background, race and other places they might live. It also asks how many people live at the home and whether it's rented or owned.

If residents don't fill out and return their questionnaire, the Census Bureau has to send a representative to collect the information. That ends up costing taxpayers a lot more money. In Vermont, only 60 percent of households returned their questionnaires in the 2000 census, well below the national average of 67 percent. We need to increase that percentage significantly!

Filling out the questionnaire is safe, and the information remains completely confidential. Census employees are prohibited from disclosing the information to any agency or individual and face jail time and fines for any violations. PLEASE fill out your questionnaire when you receive it in March. Help anyone else who might need assistance. It's easy, it's important, and it's safe. We need to make every Vermonter count!

To learn more about the census, contact Vermont partnership specialist Helen Simon at the Census Bureau in Williston at (802)264-0856 or email her at helen.j.simon@census.gov. You can also visit www.2010.census.gov.

The Census: A Snapshot

What: The census is a count of everyone residing in the United States. The U.S. Constitution requires a national census every 10 years.

Who: Everyone who lives in the U.S. most of the year – citizens and non-citizens.

Why: The census documents state population counts to determine how the 435 seats in the House of Representatives will be allocated. Census numbers also help determine how \$400 billion annually in federal money is distributed.

When: Questionnaires will be delivered or mailed to all households in Vermont in March 2010; residents should fill out and return them as soon as possible. Official Census Day is April 1. Between May and July, census workers will fan out across the state visiting households that do not return their questionnaires.

Confidential: By law the Census Bureau cannot share information gathered from individuals with any other government agency or person.
