

Public Notice: 10/25/17

Websterville Fire District #3 Water Main Project

**Here is what to expect over the next two weeks:**

- There will be a **shutdown of the entire water system** that is scheduled for **Monday October 30<sup>th</sup>** from **9am to 1pm**.
  - The contractor will be distributing flyers later this week as a reminder.
  - Please note that water may have some air and be discolored when it is back on. Simply run water for a few minutes and it will clear up.
- One service connection on Websterville Road will be completed just west of the intersection of Gregoire Street.
- Paving of roads.
- Ground restoration work – seeding and mulch, asphalt patches and miscellaneous touchup of disturbed ground surface throughout the project area.
- It is anticipated that all work related to the new water main will be complete by Friday November 3<sup>rd</sup>. Please note that if some touch up loaming and seeding is required next spring the contractor will be asked to come back and take care of it.

For further questions please contact the Project Engineer, Ken Bisceglia, PE at 802-578-2451.
